

Call for Abstracts

BMBF Funding Line “Robotic Systems for Nursing”

PhD Symposium on March 22, 2023

Online Event

We are very pleased to invite you to the project internal PhD symposium on March 22, 2023 from 9 am to 1 pm as part of the 3rd Networking Symposium within the BMBF funding line "Robotic Systems for Care".

We kindly ask you to forward this invitation to all interested PhD students in the projects of the funding line and to point out that a **personal registration** for the event is required. In addition to the contact details, the submission of a one-page abstract of the PhD topic in German or English is required.

Young scientists who are pursuing their PhD in the interdisciplinary field of the funding line should be supported to build up their own network, to discuss their own research ideas and projects and to enter into a mutual exchange with PhD students from other institutions and their supervisors.

Participants will receive the dial-in link to the event via email after your registration a few days before the event.

Agenda
